Response to RFAI dated December 23, 2005 re: February 20, 2005 Report Amended submitted December 5, 2005 for activity January 1, 2005 through January 31, 2005

1) The February 20, 2005 Report Amended submitted February 19, 2005 for activity January 1, 2005 through January 31, 2005 disclosed some debts incorrectly as still outstanding. Debts from prior periods that were paid in the current period have been marked as paid. Those that were incurred and paid in the current period and were incorrectly included as outstanding have been deleted. All payments made in the period appear on Schedule B. The amended report discloses the Committee's outstanding debt as of January 31, 2005 in conformity with 100.112, 104.3(d), 104.11.

2) All Line 22 entries were originally marked as itemized. In amending the reports, apparently the FECFILE software reset the entries that did not meet or exceed the threshold of \$200.00 to unitemized. The discrepancy between Line 22 on the Detailed Summary Page and the Schedule B for Line 22 is the result of transactions of \$672.50 being set to unitemized. We are in the process of resetting the flag on all Line 22 transactions to itemized and will file amendments for reports affected.
